

Crime Throughout Victoria

an Investigation by Deevesh Shanmuganathan

Why is crime
an important
area of focus?

Key Investigation Prompts

- What is the most prevalent type of crime?
- How closely related are specific locations and population density to the occurrence of certain types of crimes
- Is there a way to distribute government resources to combat crime more efficiently?

The Types of Crime

- A - Crimes against the person
- B - Property and deception offences
- C - Drug offences
- D - Public order and security offences
- E - Justice procedures offences
- F - Other offences

The datasets

#1- Offence count per LGA

	Jul - Jun reference period	Police Region	Police Service Area	Local Government Area	CSA Offence Division	Offence Subdivision	Offence Group	LGA Offence Count	LGA ERP	Victorian ERP	LGA offence Rate per 100,000 population
0	2017-01-01	1 North West Metro	Banyule	Banyule	A Crimes against the person	A10 Homicide and related offences	A10 Homicide and related offences	2	128469	6157538	7517.766932
1	2017-01-01	1 North West Metro	Banyule	Banyule	A Crimes against the person	A20 Assault and related offences	A211 FV Serious assault	143	128469	6157538	7517.766932
2	2017-01-01	1 North West Metro	Banyule	Banyule	A Crimes against the person	A20 Assault and related offences	A212 Non-FV Serious assault	121	128469	6157538	7517.766932

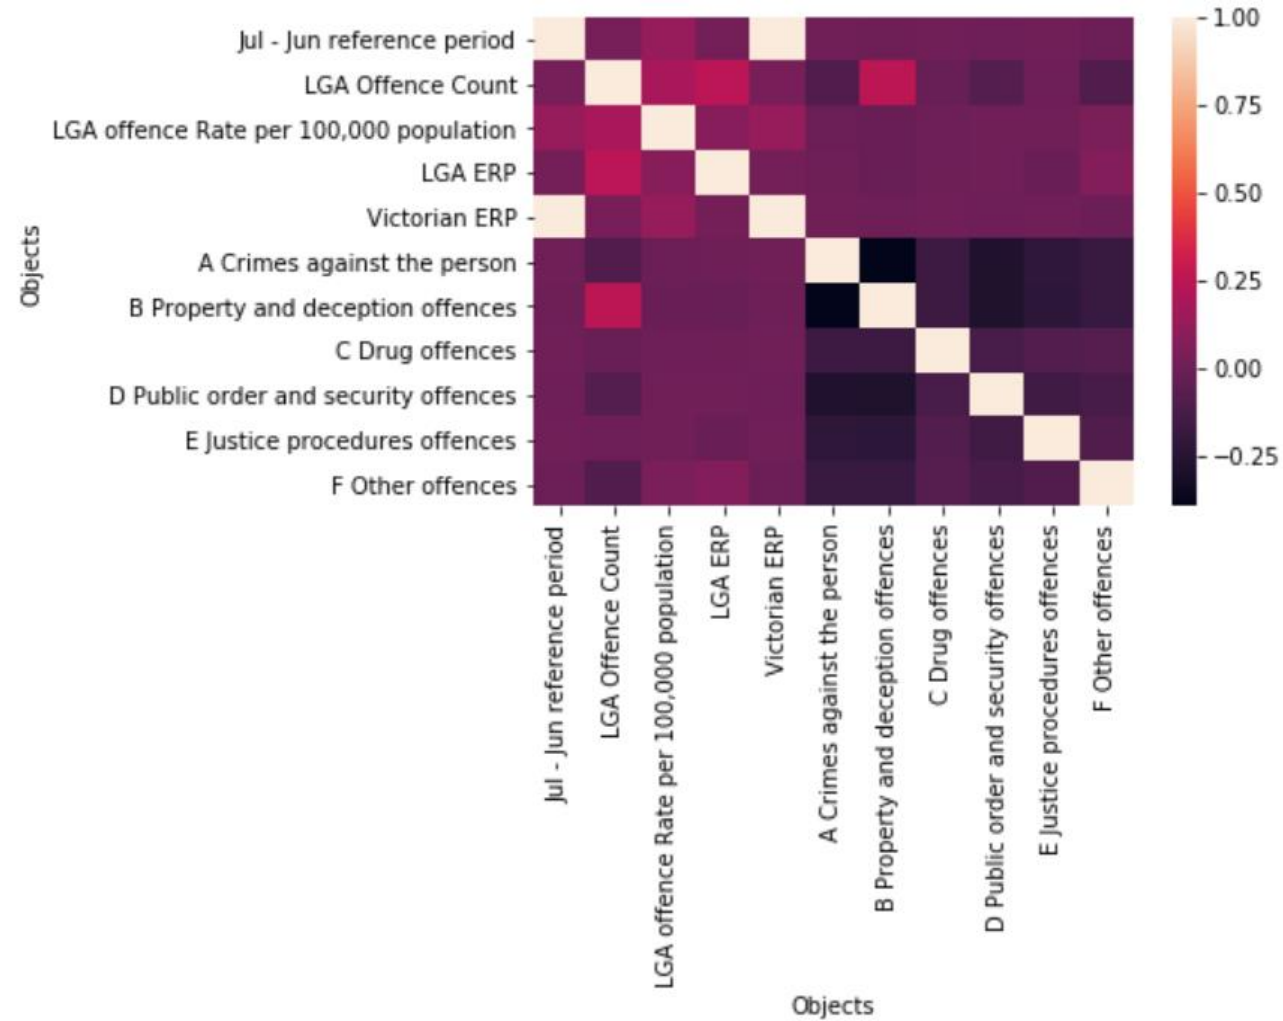

#2- Offence rate per LGA

	Jul - Jun reference period	Police Region	Local Government Area	Rate per 100,000 population
0	2017	1 North West Metro	Banyule	7517.766932
1	2017	1 North West Metro	Brimbank	8793.663288
2	2017	1 North West Metro	Darebin	10458.570040
3	2017	1 North West Metro	Hobsons Bay	6697.799521
4	2017	1 North West Metro	Hume	10656.925790
5	2017	1 North West Metro	Maribyrnong	9889.972208

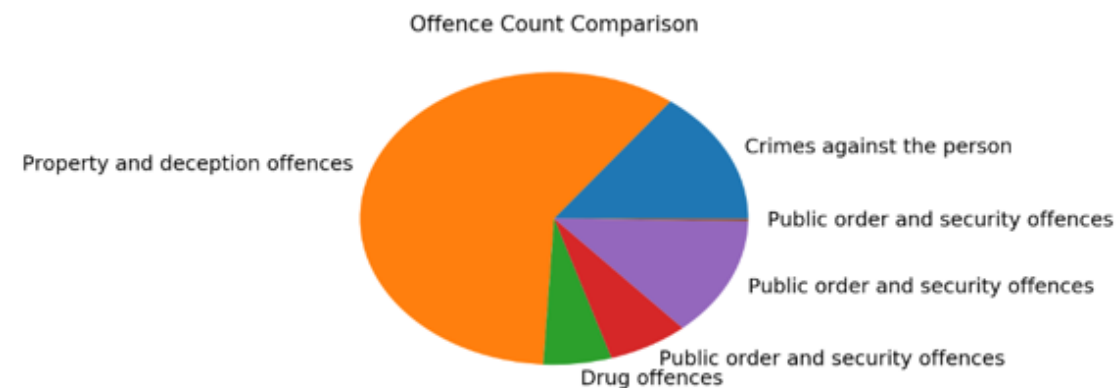

#3 - Property offences by location

	Jul - Jun reference period	Offence Subdivision	Offence Group	Location Division	Location Subdivision	Location Group	Offence Count
0	2017	B10 Arson	B11 Cause damage by fire	1 Residential	11 Dwelling - private	111 Flat/Unit/Apartment	73
1	2017	B10 Arson	B11 Cause damage by fire	1 Residential	11 Dwelling - private	112 House	330
2	2017	B10 Arson	B11 Cause damage by fire	1 Residential	11 Dwelling - private	113 Bungalow	5
3	2017	B10 Arson	B11 Cause damage by fire	1 Residential	11 Dwelling - private	114 Caravan/Mobile Home	9
4	2017	B10 Arson	B11 Cause damage by fire	1 Residential	11 Dwelling - private	115 Houseboat	1

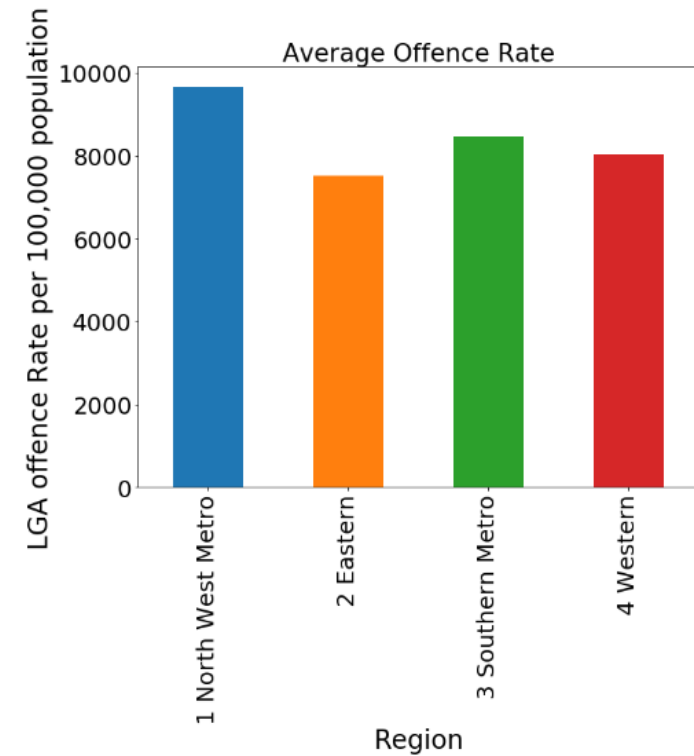

Offence Count Heatmap

Proportion of Crime in Victoria

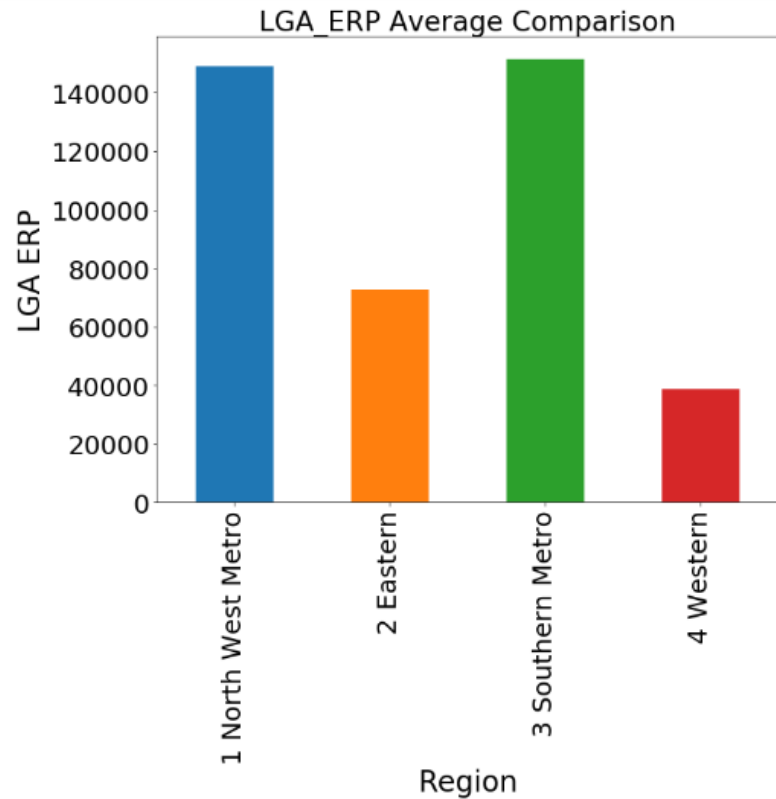

Population vs Crime Rate

Population vs Offence Rate Per Region

LGA ERP vs Property Offence Rate (2017)

Mutual Information for Offence Counts

Location Group vs offence rate

Distribution of Property Offence Rates

Interesting Findings

Challenges

Hard to impute
categorical information

Hard to determine the
validity of certain regions

Outliers were an integral
part of the data

Summary

1

Property offences are the most common type of crime

2

The population of an area has very little to do with the crime rate

3

Crime rate has a high correlation with the location type

4

Theft is the most common type of property offence and arson is the lowest, fire station construction should prioritise locations with a high arson rate
